

# EU GREEN INTERNATIONAL TEACHING WEEK

19th to 23rd May 2025

1ST  
EDITION

## JOIN THE LAUNCH OF AN INSPIRING, COLLABORATIVE, PEDAGOGICAL PROJECT

The IUT of Angers would like to dedicate the international week this year (19–22 May, 2025) to fostering collaboration among teachers and staff members of the EU Green Consortium. The aim of this initiative is to engage academics of our community in meaningful dialogue and exploration of “Innovation for Better Living”, a subject that is at the intersection of three pivotal work-packages: Innovation, Engagement and Internationalization.

The participants from different disciplines, including mechanical engineering, electrical engineering and industrial computing, applied biology, food science, biomedical sciences, business administration and marketing will share knowledge, and co-create pedagogical projects to inspire innovating solutions for a better living both on and off campus.

Innovation for a better living can be explored through diverse perspectives, each addressing how innovative ideas can enhance quality of life in specific areas. These include:

- Health and Wellness, with advancements in healthcare, fitness, and nutrition.
- Sustainability, encompassing eco-friendly solutions, renewable energy, and circular economy practices.
- Technology, featuring innovations like smart homes, AI-powered services, and wearable devices.
- Accessibility, focusing on products and services that improve the lives of people with disabilities or those in underprivileged communities, etc.,
- Social entrepreneurship, organizational innovation and business models with a social impact, student entrepreneurship, crowdfunding, etc.,
- New pedagogical patterns to develop students' commitment and community engagement (experiential learning, design thinking, hackathon).
- Other related subjects can be added to the list by participants to this project.

# EU GREEN INTERNATIONAL TEACHING WEEK

19th to 23rd May 2025

**1ST**  
EDITION

During the first day, teachers will engage in brainstorming sessions, workshops, and discussions aimed at aligning the pedagogical projects with learning objectives that foster students' engagement.

Once finalized, these projects will be implemented in the classroom, serving as a foundational learning experience for first-year students.

On the final day, the teachers will convene to reflect on their experiences and share constructive feedback about the week's activities. This discussion will provide an opportunity to evaluate the effectiveness of the collaborative process, identify areas for improvement, and highlight successful strategies or outcomes (BIP, creation of micro modules about sustainability, COIL ...)

This session will also be the opportunity to make important decisions about the logistics and focus of the next EU Green International Week (date location and theme).

This EU Green international week will not only foster a sense of shared purpose but also lay the groundwork for ongoing pedagogic collaboration.

## FUNDING

Guest teachers should finance their visit (travel and accommodation costs) from the home university's Erasmus Mobility Budget.

**If you want to join us, please send an email to [dir-ri-iut@univ-angers.fr](mailto:dir-ri-iut@univ-angers.fr) no later than February 9th, 2025.**

## Monday 19th

- 09:00 – 10:00 Registration and welcome coffee
- 10:00 – 12:00 Brainstorming and collaborative workshops
- 12:00 – 01:30 Lunch break
- 01:30 – 3:30 Collaborative workshops
- 3:30 – 05:30 Visiting Terra Botanica eco-theme parc

## Tuesday 20th

- 09:30 – 12:30 Lectures
- 12:30 – 02:00 Lunch
- 02:00 – 5:00 Handisport activity
- 07:30 – 10:30 Welcome Cocktail and dinner

## Wednesday 21st

- 09:30 – 12:30 Lectures
- 12:30 – 02:00 Lunch
- 02:00 – 04:00 Optional workshop: create your podcast
- 04:00 – 05:30 Visiting the Tramway center
